

## **ENVIRONMENTAL PROTECTION AND SOCIAL RESPONSIBILITY POLICY**

### **FOR THE PROTECTION OF THE ENVIRONMENT;**

- We identify environmental risks that can occur after each departmental activity and take measures to reduce the wastes generated.
- We ensure that the waste is separated and recycled throughout the hotel and in the rooms. We help protect the natural life by protecting the endemic plant species in our garden, caretas coming from our beach.
- We ensure that irreversible and medical wastes generated in our facility are neutralized by the Ministry of Environment and Urbanization by licensed companies.
- We regularly monitor water and electricity consumption to make our natural resources sustainable and take preventive measures to prevent excessive consumption.
- We are conducting regular exercises with emergency response teams to prevent emergencies and environmental disasters that may occur.
- We make the criteria of our Blue Flag award which is a symbol of clean sea, well-kept, healthy and reliable beach every year.
- We provide continuous training to our staff on the need to use as much of the chemicals as possible to prevent excessive chemical consumption.

### **FOR SOCIAL RESPONSIBILITY;**

- We cooperate with foundations, associations and associations established for regional development. We regularly attend events organized to promote regional tourism.
- In order to overcome the shortcomings in the individual sense we're getting our employees on external training.
- We constantly raise awareness of our guests and employees to keep the harmony of tourism and environment at the highest level.
- We give the best support to apply as human resources to all employees regardless of language, religion and sect, race, gender, age, political thought, philosophical belief and similar reasons.

**GENERAL COORDINATOR**
